# ETK 101E - Engineering Ethics Student Survey (Spring 2013)

#### COURSE EVALUATION

1. Please list below the courses that you took previously and found useful in understanding the concepts in this course.			
2. What additional background would have been useful in completing this course, e.g. additional math courses, physical science			
courses, engineering courses, humanities and social sciences courses, etc.			
3. At which level of undergraduate education at ITU, either at freshman level (1st or 2nd semester) or at senior level (7th or 8th)			
semester, should this course be offered, you think ?			
4. Evaluate the following statements, which will reflect whether the course learning outcomes have been achieved in this course, on a scale of 1 to 5, as 1 being the least useful and 5 being the most useful.			
This course,		Grade	
has enabled you to understand what professionalism and professional the	ought is.		
has helped you understand the importance of professional societies regarding the good of society.			
has directed you to develop and use analytical thinking skills for prudent decision making in solving ethical problems.			
has enabled you identify, formulate, and solve engineering ethics problems.			
has directed you acquire knowledge for solving ethical problems to be encountered in technological and scientific issues.			
has provided you with practical ideas and methods, those are used in solving ethical problems.			
has enabled you understand the impact of engineering solutions in global and societal context.			
has enabled you be aware of the need for life-long learning.			
has directed you establish a link between the knowledge gained in the background courses and the ethics problem in hand.			
has enabled you to make decisions in the presence of uncertainty and of economical constrains.			
has helped you to develop and use effective leadership skills.			
has helped you realize the effect of technological implementations on hea	alth, safety, and environment.		
5. What material of this course was covered in prior courses you ha	d enrolled ?		
Торіс	Which Course ?		
6. How would you rate the contribution of this course in your overal	6. How would you rate the contribution of this course in your overall education at ITU. Please just simply give a grade		
between 1 and 5, as 1 being the least useful and 5 being the most useful.			

## ETK 101E - Engineering Ethics Student Survey (Spring 2013)

### INSTRUCTOR EVALUATION

#	Evaluate the following statements, which will reflect the performance of the course instructor, on a scale of 1 to 5, as 1 being the least useful and 5 being the most useful.	
1	References (class notes, slides, reading material) used for the course are sufficient.	
2	Course content complies well with the weekly course load.	
3	Course was taught by the instructor(s) as indicated in the program.	
4	Course syllabus was distributed at the beginning of the course.	
5	Teaching the course in English helped to improve my English.	
6	The instructor was fluent in teaching the course in English.	
7	Instructor taught thoroughly the course in English.	
8	The instructor was consistent with the course syllabus throughout the semester.	
9	The instructor put enough effort to make the course attractive.	
10	The instructor was well prepared in teaching the course.	
11	The instructor was good at using the board and the other visual teaching equipment in the course.	
12	The instructor encouraged students to ask questions and use library to do research.	
13	The instructor was clear and consistent in answering the questions during the course.	
14	The instructor encouraged students to become active during the course	
15	The students were able to reach the instructor during his/her office hours.	
16	The homework/project assignments were helpful for learning the course.	
17	The instructor was timely in returning graded homework and exam material.	
18	I would like to take another course from the same instructor	

### COMMENTS

Please provide below your comments and suggestions, if any, that you may have about the course content, instructor, course assistant, etc.
