TH KÖLN

Are you interested in diversifying your studies and achieving a balanced study-life relationship? Then the activities at TH Köln are just right for you!

Learning and working at the university primarily take place in dedicated workspaces designed for students. There, you'll have the space to build your models and work on projects. However, if you ever wish to work undisturbed, you can find a cozy spot in the library and afterwards enjoy your lunch break at the cafeteria, which offers a variety of daily changing meals.

Throughout the semester, you can take advan-

tage of a wide range of guest lectures and exhibitions on various architectural topics. While studying is important, it's equally essential to find a good balance. Therefore, the Asta regularly organizes parties and celebrations. The university sports program will get you sweating, offering courses in different areas such as ball sports, martial arts, fitness, dancing, and water sports. Excursions within Europe and to distant countries and cultures are also organized, and you're warmly invited to participate.

INTERNATIONAL DINNER

Be part of a unique culinary experience! The International Dinner at our university invites you to discover the diversity of world cuisine and make new international friends. Come and enjoy an evening full of delicious dishes and cultural exchanges.

What to expect:

- International cuisine: Each dish is prepared by students from different nations, showcasing their culinary skills and traditions.
- Intercultural exchange: It's a great opportunity to learn about global perspectives and forge intercultural friendships.
- Entertainment and activities: Enjoy musical performances or interactive games organized by students during the evening. Additionally, group outings and events can be planned together.
- Assistance with everyday issues: Many everyday problems can be addressed, and fellow students can help you find solutions.

FACTS

When and where?

Date: every Thursday

Time: 7:30 p.m.

Place: TH Köln Deutz

IMPORTANT : You can also participate via Zoom!

So feel free to check in from your country in advance.

BUDDY PROGRAMM

Welcome to our university!

As an exchange student, you have the unique opportunity to explore new cultures and make friendships from around the world.

Our Buddy Program has been specifically developed for you to help you navigate your new academic and cultural environment more easily.

What is the Buddy Program?

The Buddy Program is an initiative where experienced students from our university act as „buddies“ and support you as an exchange student. Your buddy will be there to assist you with any questions and challenges you may have and help you integrate into university life.

Interested?

How you can participate:

We will match you with a suitable buddy and facilitate contact between the two of you. If you're interested, please let us know your interests and something about yourself.

If you have any questions, don't hesitate to contact us.

What do we offer you?

- Individual support
- Cultural exchange
- Social activities
- Campus introduction

ERFAHRUNGSBERICHTE

Leo Müller Wille

I arrived in Germany at TH Köln from EAV&T Paris-Est in September 2022. The search for an apartment in Cologne was quite challenging. I'm here for a whole year, and the initial adjustment was difficult, but the last six months have been unforgettable. In the second semester, I discovered the existence of ESN Köln, which is responsible for all Erasmus students in the city! Now, there are only a few weeks left, and I have made many new friends. Thank you, Cologne!

Hi, my name is Celia and I'm currently studying in the 2nd semester Master in Corporate-Architecture. I already finished my bachelor's degree at the Technical University of Cologne, but I am originally from Valencia (Spain), where I studied architecture for 3 years. I really appreciate the proximity to the professors here, how much they help and the fact that we are fewer people. Communication is easier, and I'm learning more as a result. I really like Cologne - the people here are lively, and you feel well taken care of even in winter!

Celia Barnert Segovia
