(*) **101 Ethics Presentation Preparation Guide**

1- Identify the resources related to your topic(library, internet and others).

2- Start a detailed examination by making a note. (Check the source from which you received

the notes)

3- Define the content of your presentation by gathering the topic.

4- Complete your presentation using POWER POINT or another program as follows:

(Up to **15** slides excluding cover)

• Cover page

• Lectures and explanations

• References ([1] **author** names; **title** of work; name of **publisher** or journal / conference; **year**

of publication)

5- Name your presentation by **group name-topic** (for example, ahmetmustafaemre-LIGO.ppt or

ahmetmustafaemre-nanotechnology.pptx).

Presentation files should be uploaded by clicking on the link below (if you are not a member of

dropbox, you will need to register first). After uploading your presentation file, do not forget to

enter your first name, last name and e-mail address in the automatically opened field, otherwise

the process will be invalid.
