

International Workshop
on
Role of Infrastructures in Seismic Rehabilitation

ITU - Civil Engineering Faculty

SEISMIC ENGINEERING RESEARCH INFRASTRUCTURES FOR EUROPEAN SYNERGIES

Coordinated by M. Fardis

Unlocking the huge potential of Europe's RTD community in earthquake engineering.

Bridging the two gaps of RTD in experimental earthquake engineering and structural dynamics:

(a) the one between Europe and the US or Japan, and

(b) that between European countries with high seismicity but less advanced RTD infrastructures on one hand and some more technologically advanced but not so seismic Member States on the other.

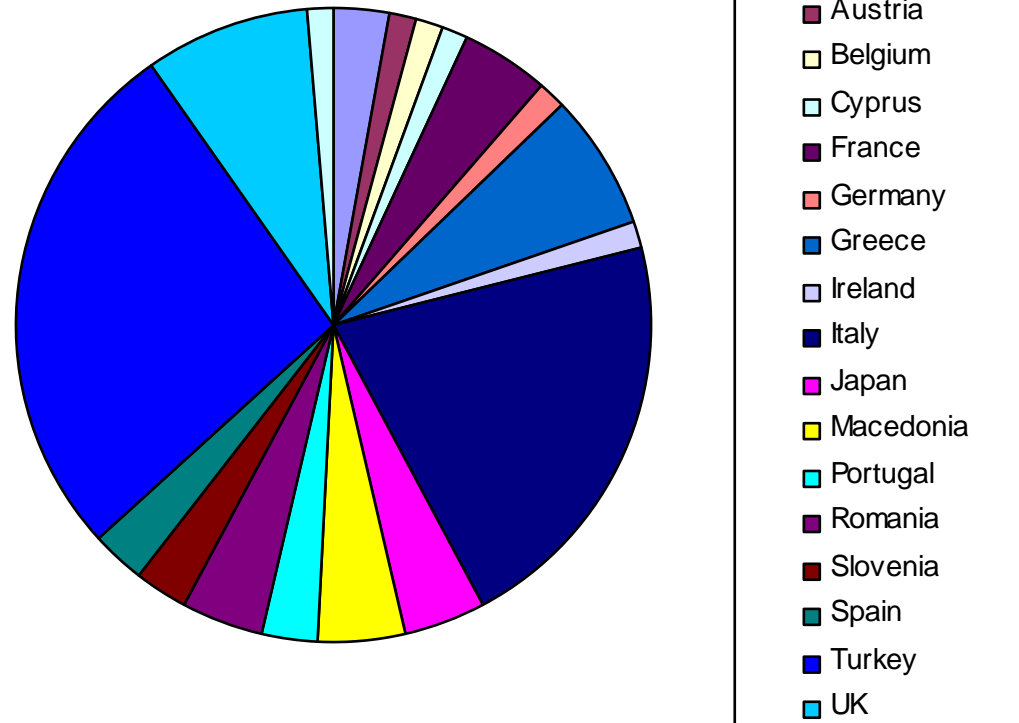

Presentations

1 keynote lecture: Prof. Mete Sozen (Purdue Univ.)

36 oral presentations by worldwide known experts

From

18 countries

Total registered participants: 71

Special thanks are to:

Prof. Sozen

Colleagues coming from Japan and Australia

Project partners and contributors

External scientific committee members

Scientific committee

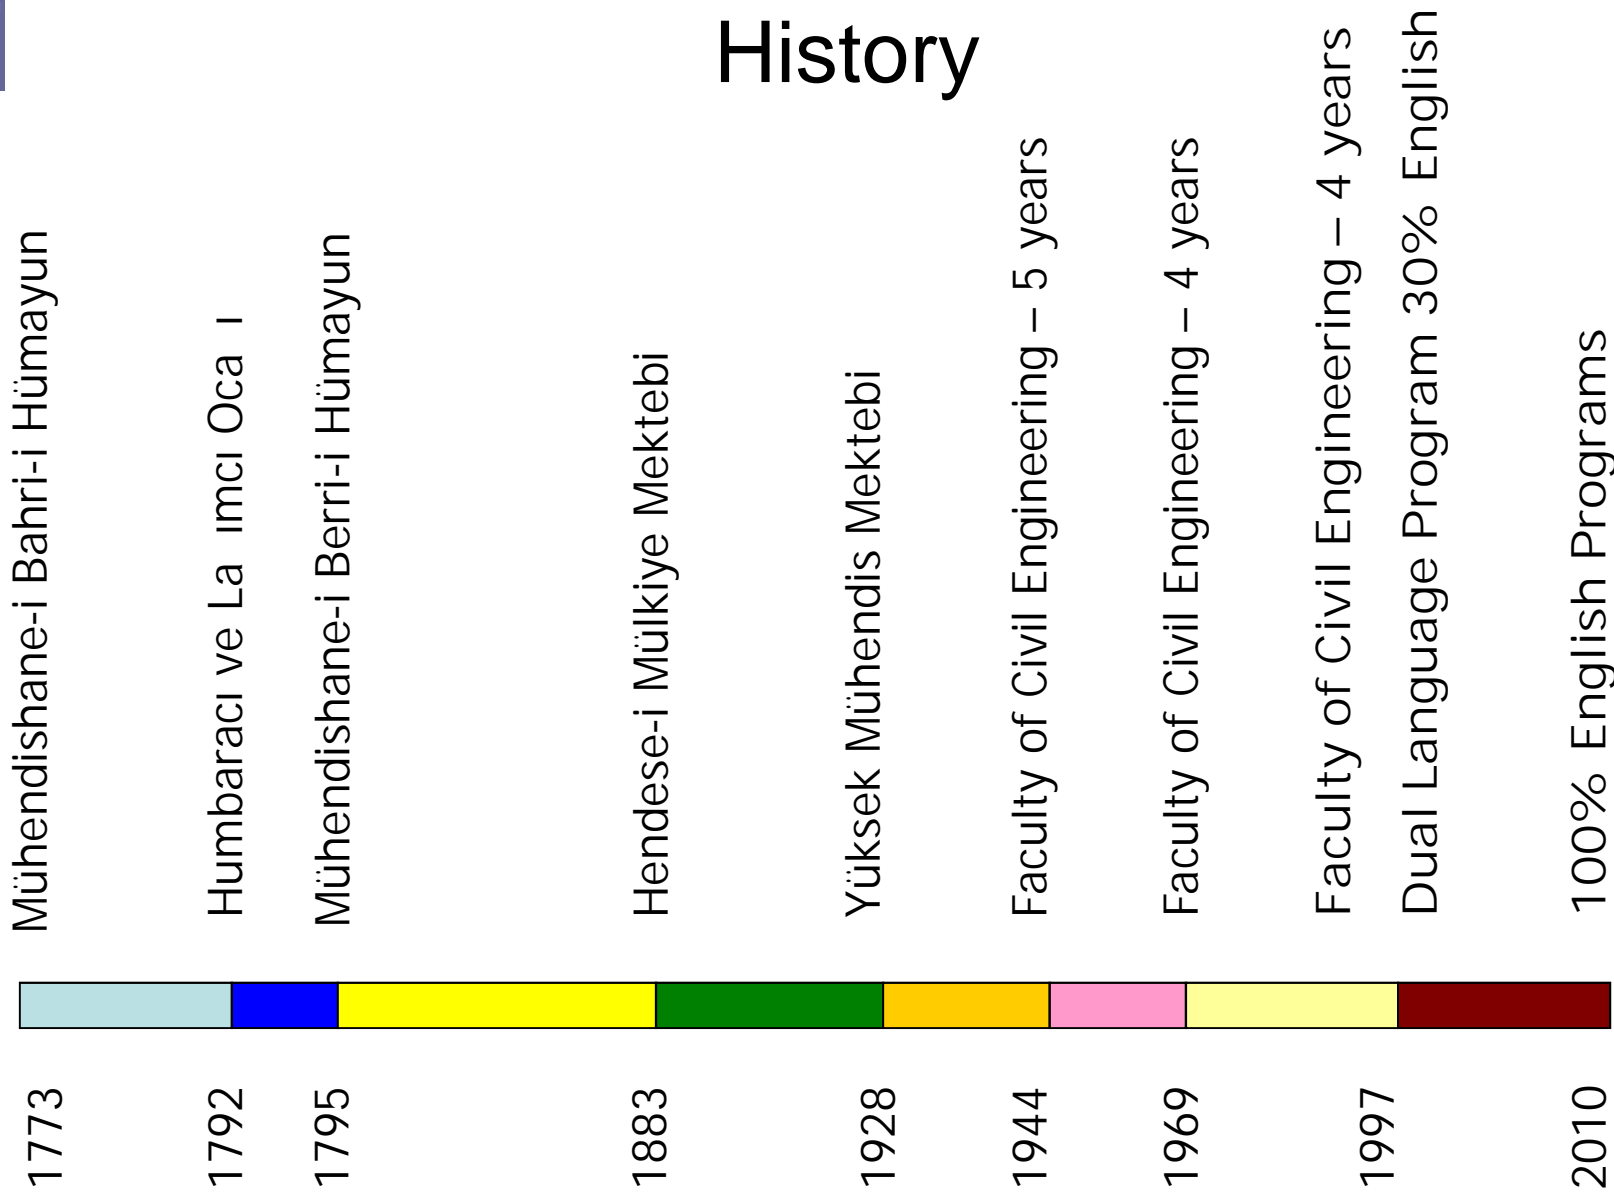

Chairpersons

Organization committee in particular **Dr. Medine Ispir** and **Dionysis Biskinis**

Staff of ITU Civil Engineering Faculty and graduate students

Dean Prof. Gaye Onursal

Rector Prof. Muhammed Sahin

International Accreditation

All departments of the Faculty are accredited by ABET for the second time in 2011.
