BUILDING PRODUCTION SYSTEMS

Assignment-01c

Assume that you are the owner of two different projects:

- A mass housing project of 500 housing unit
- A triplex house building

Which of the production patterns would be appropriate for each project? Why?

Please take into consideration the size of the projects, your expectations, the role-keepers (stakeholders), their relationships, and structure of production process.

Assignment must:

- include your own original thoughts and comments,
- be prepared as four (4) pages at least,
- be written A4 size paper with 1.5 line space,
- contain a cover page including the name of course, name and number of student, date,
- be submitted by the end of lesson indicated in course schedule.
