

**COMPUTER APPLICATIONS IN ARCHITECTURE**  
**2004-2005**  
**ASSIGNMENTS**

---

---

**Assignment-02**

**Design and development of a web page including:**

- personal information,
- professional career (projects involved, firms worked for, etc),
- academic career (courses taken, projects developed, etc),
- links to the sites considered to be significant for architectural theory and practice,
- etc.

**The web pages developed will be:**

- located on a server either provided by the students' their own institution or on a server providing free web services on internet,
- submitted in time; the deadline is announced on the schedule on WEB page.
